TO THE RESIDENTS OF DUMONT

On or about Friday, December 2nd (weather permitting), you will observe soil boring work to be performed by a qualified contractor, hired by PSE&G, in association with our Gas System Modernization Program (GSMP). The intent of the GSMP initiative is to accelerate the modernization of our cast iron and unprotected steel gas infrastructure. This preparatory work will determine if the soil classification in your area is viable for our gas department to execute gas system upgrades.

Upon review of these soil findings, we will discuss our potential work plans with Borough officials as well as provide notice to the general public.

Should you have any questions, please contact me at the following e-mail address: Rosalie.Serapiglia@pseg.com or via phone at (973)738-9734.

Sincerely,

A handwritten signature in blue ink that reads "Rosalie Serapiglia".

Rosalie Serapiglia
Regional Public Affairs Manager
