ELEVATION GENERAL NOTES

1. All proposed ground-based antennas are to be terminated to the center, adjacent to the antenna, and placed at a minimum distance of 1/4" below ground-level. Terminations may be coaxial or compression.

2. The contractor shall be responsible for lifting the antenna and the CDA configuration is the correct name and model number provided prior to installation.

3. All connections for cables, supports, bracing, etc. shall be installed in accordance with the manufacturer's specifications and recommendations.

4. Contractor shall reference the source structural analysis/design drawings provided by the manufacturer for directions on chain suspension, bracing, and antenna configuration.

5. Distance from antenna to surge arrester to be a minimum of 10 feet.

6. All proposed antenna & appurtenances shall be marked to match the antenna installation.

FINAL ELEVATION

2-3 SCALE: 1"=1'-0" (22¾"x34" SHEET)
SCALE: 1"=20'-0" (11¾"x17" SHEET)

All antenna and towers shall be approved by the applicable authorities prior to installation.

FINAL ELEVATION DRAWINGS ARE PRELIMINARY AND SUBJECT TO CHANGE.
